MEMORANDUM FOR: Director of Central Intelligence

FROM: [REDACTED]  
Acting Director of Personnel

SUBJECT: Information on 1979 Graduate Studies Program

1. Action Requested: None; for information only.
2. In preparation for your 2 August address to the Graduate Fellows, formerly known as Summer Interns, I have attached information to acquaint you with the 1979 participants.
3. The Program included 64 students from 41 colleges and universities. Included in this group are 16 women and five Blacks. Harvard University has the most participants with six followed by Georgetown with five. George Washington, Ohio State and Virginia each have three representatives.
4. Geography, economics, international relations, law, medicine and psychology are among the academic disciplines being pursued by the students. Over ninety percent have completed one or more years of graduate school. In addition to your office, fifteen other components are participating in the Program including for the first time the Resource Management Staff.
5. The attitude of the Graduate Fellows toward the Agency is quite favorable and has always been. Eighteen of the participants are returnees from the 1978 Program. Many have expressed a desire to return either as Graduate Fellows or staff employees next year. Since it began in 1960, twenty-three percent of the participants have returned as staff employees.
